

What's that sound?

This game is to help identify sounds at the beginning of words. You'll need a dice and some counters to play. Place all the cards in a pile face down and ask the first player to take the top card. Ask them to identify the first sound in the word. You might have to say the words for them emphasising the first sound. Once the first sound has been identified the player can roll the dice and move on the board. Continue until a player reaches the end of the board.

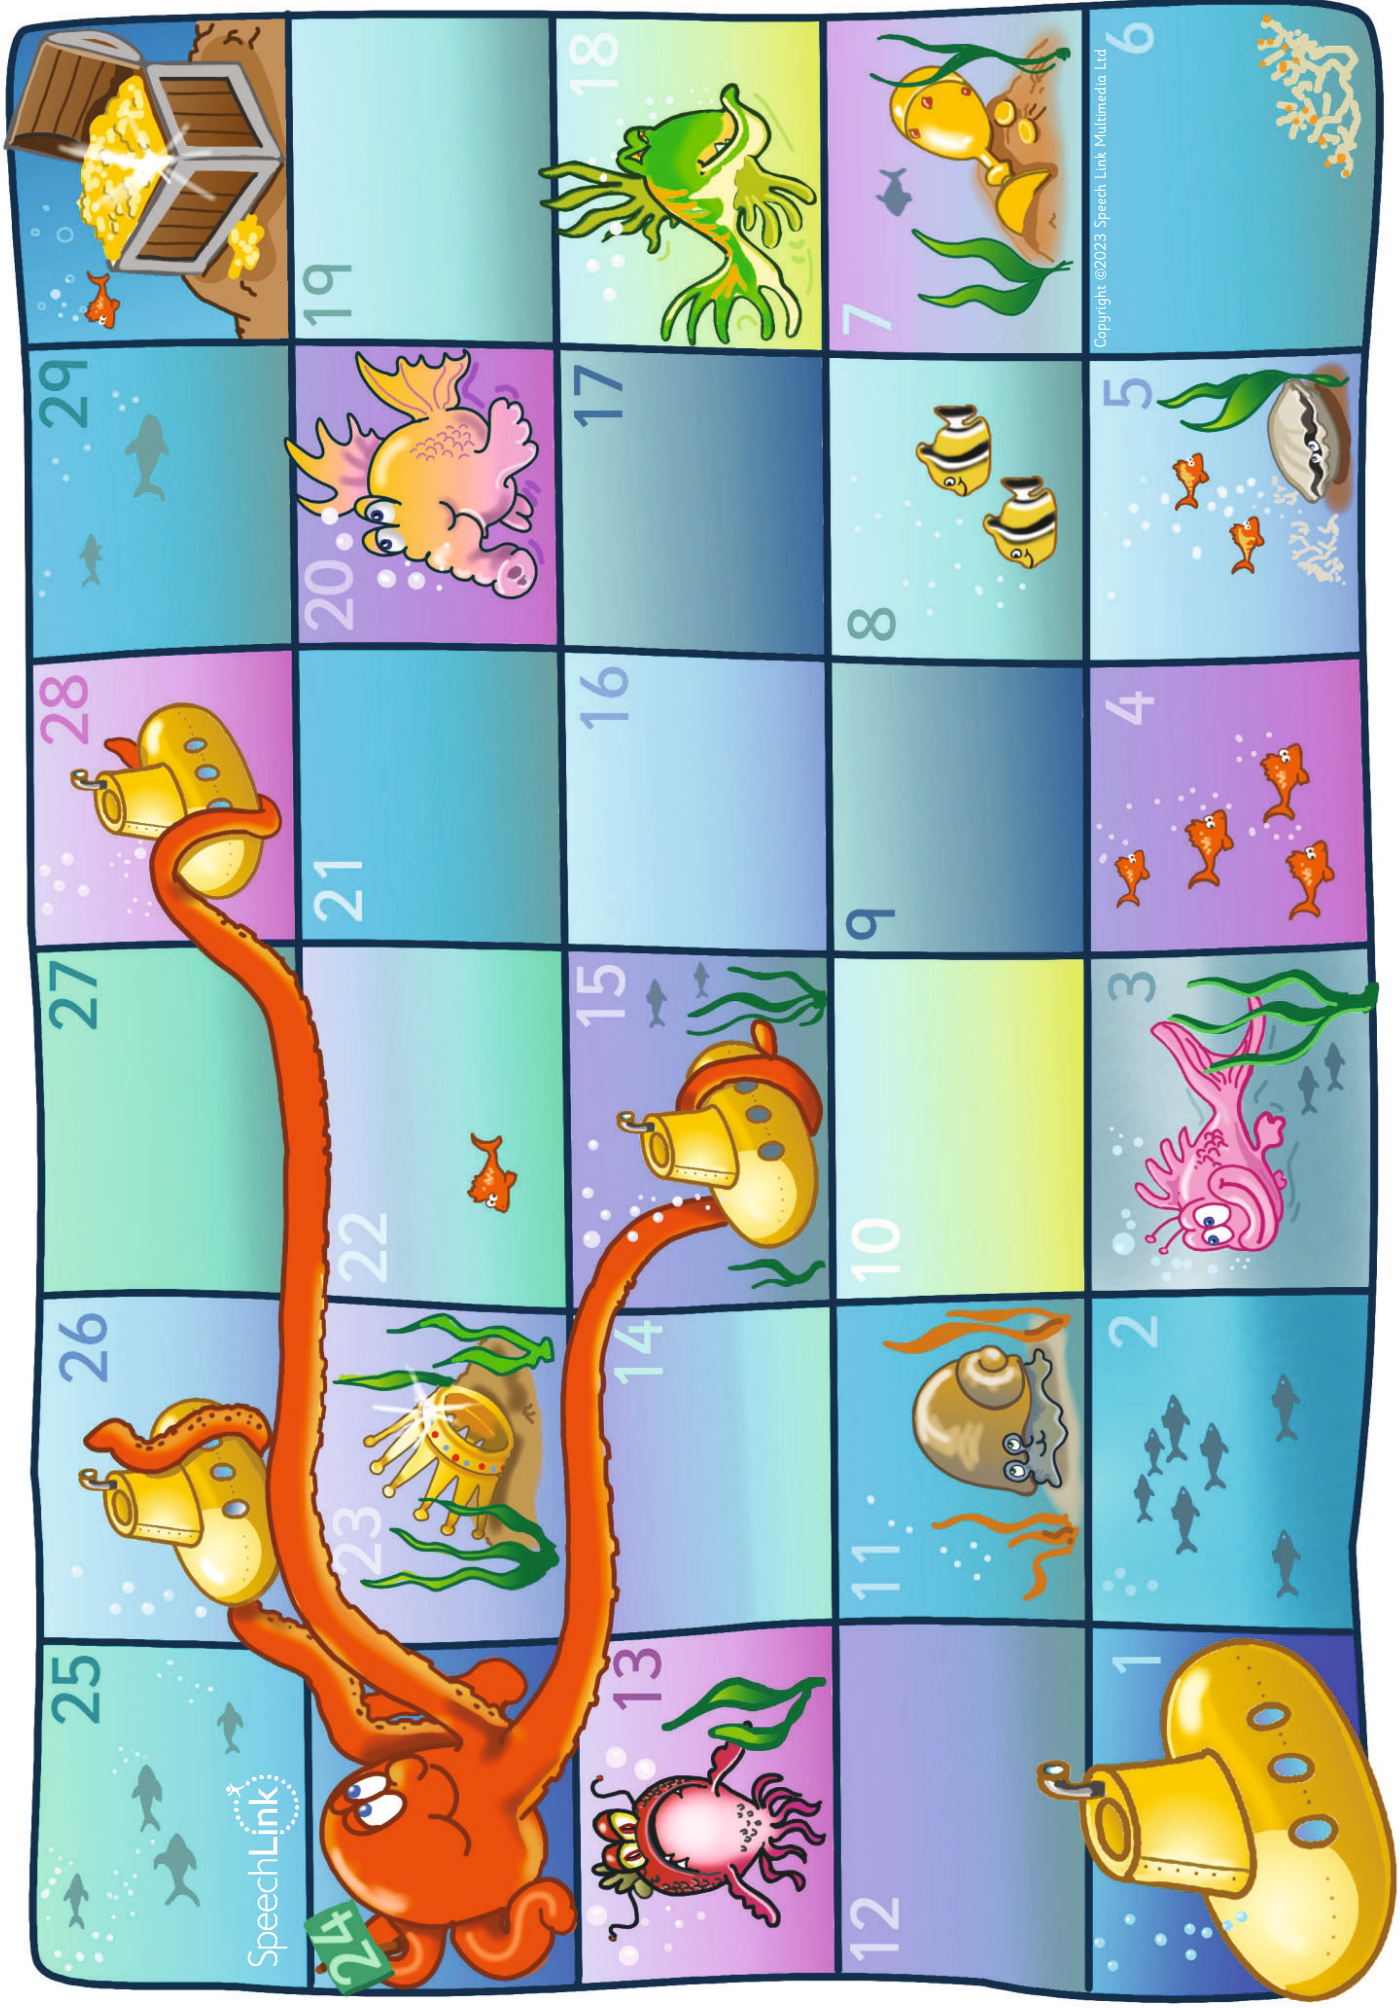

To make the game easier give the child a choice of sounds e.g. does 'bed' start with a 'b' or a 't' sound?

To make the game harder ask the child to think of another word beginning with the same sound or to identify the sound at the end of the word.
